

CAPABILITIES STATEMENT

SUMMARY

Shostack & Associates is a specialized security consultancy, focused on meeting the unique needs of each client through a variety of services including threat modeling, security engineering, and security process analysis, technical threat modeling training, train-the-trainer, security advisor training, and coaching.

CORE CAPABILITIES

TRAINING

- Hands-on Threat Modeling Training
- Security Advisor Training
- Train-the-trainer

Our hands-on training program is always provided by Adam Shostack who uses 60+ modules that build on the materials and structure in his book, *Threat Modeling: Designing for Security*. The training program focuses on presenting knowledge, exercising it to meet organizational learning goals, and presenting it in the context unique to each organization.

CONSULTING

- Security Process Review
- Security Development Lifecycle Design and Implementation
- Product Analysis

Our consulting services are built upon Adam Shostack's 20+ years of experience as a leader in Secure Development Lifecycles and threat modeling.

THE SHOSTACK & ASSOCIATES DIFFERENCE

Adam Shostack isn't just a leading expert in threat modeling. He wrote the book that leading experts in the technology security industry rely on, *Threat Modeling: Designing for Security*.

For truly effective threat modeling skills development, turning to the author of *Threat Modeling: Designing for Security*, co-author *The New School of Information Security*, creator of the Microsoft SDL Threat Modeling Tool (v3) and the Elevation of Privilege threat modeling game is the only solution for organizations with the highest levels of risk and security needs which is why Adam Shostack is the one who facilitates each of our training programs.

CAPABILITIES STATEMENT

SHOSTACK & ASSOCIATES CLIENTS

Shostack & Associates serves many of the world's top firms, including multinational companies doing billions of dollars of business in the finance, aerospace, medical, and technology industries. They come back to Shostack & Associates when they need to level-up their top talent, threat modeling capabilities, and their SDL. Organizations know that they can trust Shostack & Associates to provide great service and maintain strict confidentiality.

“Adam had a great ability to stress the importance of threat modeling and foresee issues of implementation and taking through them. He also set realistic expectations of what the engineers could accomplish in a reasonable amount of time.”
